

Pre Survey

Instructions. This short survey is to be administered before the workshop starts and anytime after the workshop ends. **IMPORTANT:** The survey has to be answered by each person individually, and there should be no group discussions or group answers. The person may be assisted by a facilitator in answering her/his survey form. We should get one filled-out form per participant. Please be sure to write the name of the participant.

NAME: _____

Question 1.

Let us imagine that a cyclone is approaching, and that you see two warning flags being raised in the camp (as part of the Early Warning System). On the following are some statements, and the question is how strongly you feel or agree with these statements. You can indicate how strongly you hold these sentiments by adding checks (✓) beside them. The more check marks, the more strongly you feel or agree with the statement. You can add anywhere from no checks () to show you do not feel or think as the statement says at all, one check (✓) to show that you share the feeling indicated in the statement but not strongly, two checks (✓✓) to show that you feel it not so strongly, three checks (✓✓✓) to show you feel it quite strongly, and four checks (✓✓✓✓) to show that you feel or agree with it very very strongly. **IMPORTANT:** you **CANNOT** put four checks (✓✓✓✓) on all the statements –just the one or two statements that you feel or agree with most strongly.

When I see the warning flags (warning of a cyclone), I think or feel that:

_____ whatever happens to us will happen; just hope for the best.

_____ we have to get more information to decide what to do.

_____ we have to go to our neighbors and talk to them about this.

_____ all we can do is stay in our homes until the storm passes.

Question 2. As in the previous, write checks (from none to four) to show how strongly you are feeling or thinking what the statement says.

_____ I have a lot of hope for our future.

Post Survey

Instructions. This short survey is to be administered before the workshop starts and anytime after the workshop ends. **IMPORTANT:** The survey has to be answered by each person individually, and there should be no group discussions or group answers. The person may be assisted by a facilitator in answering her/his survey form. We should get one filled-out form per participant. Please be sure to write the name of the participant.
